

PLNTRK PAY

Simple payments. Built right into your checkout.

Give customers an easy way to complete a bank payment from their phone while your team stays inside the PLNTRK POS. Staff can start the payment, offer a QR code or payment link, and see when the order is paid.

ONE CHECKOUT. MULTIPLE WAYS TO PAY.

Scan a QR code | Send a text link | Send an email link | Confirm payment in PLNTRK

What the experience looks like

1

Choose PLNTRK PAY

At checkout, staff selects the bank-payment option for the order.

2

Customer opens payment

They can scan the on-screen QR code or receive a secure payment link by text or email.

3

Customer pays on their phone

The customer completes the payment using the guided mobile payment experience.

4

PLNTRK confirms the sale

The POS shows payment status so staff knows when the order is ready to complete.

Why stores use PLNTRK PAY

For your staff

- Payment starts from the same PLNTRK checkout.
- See whether payment is pending, completed, or needs attention.
- Keep the payment connected to the correct order.
- Print or email the receipt after the sale is complete.

For your customers

- Use their own phone to complete payment.
- Choose QR, text, or email to open the payment.
- A clear mobile flow keeps the counter experience simple.
- Receive a normal store receipt when the transaction is complete.

Designed for the dispensary counter

PLNTRK PAY keeps the payment experience connected to the same order, customer, discounts, loyalty, taxes, and receipt workflow your team already uses in PLNTRK.
